

A C10 battery is specifically designed to deliver consistent energy over a 10-hour cycle. This makes it ideal for setups that need reliable power over a medium duration, such as solar ...

Embrace clean energy and experience the benefits of solar power generation with the dependable UTL C10 battery. Designed with Deep Cycle technology, the UTL C10 battery excels in the repetitive charge and discharge cycles typical of solar ...

The reasons that make this product a much superior performer lies in selectively chosen alloy, high pressure casting in HADI machines, in-house oxide formulation, imported microporous separators and vent plugs ensure a long life ...

C10 rated batteries are always recommended for solar and industrial purposes with the best charging and discharging rates. As the high load uses battery power, it is capable of delivering more energy in a short time.

Product description Exide 6LMS150 -150AH - SOLA-TUBULAR Battery for Inverter, Solar System, UPS. !! 5 Years Warranty. Average Life 7-10 Years. India Top no 1 brand recognized for Quality and Performance.

A C10 battery is specifically designed to deliver consistent energy over a 10-hour cycle. This makes it ideal for setups that need reliable power over a medium duration, ...

The reasons that make this product a much superior performer lies in selectively chosen alloy, high pressure casting in HADI machines, in-house oxide formulation, imported microporous ...

Ideal for off-grid and hybrid solar setups, the C10 Solar Tubular Battery provides reliable energy backup and efficient power management, ensuring consistent electricity availability.

C10 rated batteries are always recommended for solar and industrial purposes with the best charging and discharging rates. As the high load uses battery power, it is capable of delivering ...

Our Solar C10 Series tall tubular batteries, engineered for unmatched reliability and performance. With robust tubular design and high-pressure die-cast spines, they ensure minimal corrosion.
