

# Can you charge your battery with the aegis solo

Can I charge the aegis solo with a mobile phone?

Don't charge the Aegis Solo with a mobile phone or tablet charger. Make sure that the battery is secure and installed with the correct orientation. The battery's positive pole should face the top of the mod.

What is an external battery for geekvape aegis solo III?

A5: An external battery refers to a battery that is not built into the device and can be replaced or removed, like the 18650 battery used in some Geekvape products. Q6: What is the recommended charging voltage for the geekvape aegis solo iii? I don't want to burn out the battery, but I wanted to know if it's able to use a 9v/2.5a charger.

How do I recharge my aegis solo 3 battery?

We always recommend using a dedicated external charger for recharging the battery. The casing of the Aegis Solo 3 is impeccable, featuring faux leather embossed with the model's name. The finishing is flawless, subtly blending shiny and satin aspects. Beneath the leather is a series of sensors enabling box unlocking when handled.

Does aegis solo 3 have a battery?

The Aegis Solo III answers that call, with a single 18650 battery format. Like its predecessor, the Aegis Solo 3 box features touch unlocking. This new technology is appreciated and becomes almost indispensable once tested. Operating with a 18650 battery, this kit is geared towards powerful direct-to-lung cloud vaping. The kit includes:

What should I do if my aegis solo won't charge?

Try a different USB cable. Although the Aegis Solo can take a great deal of abuse, USB cables wear out quickly when they're used every day. Try a different computer or a different USB port on the same computer. Don't charge the Aegis Solo with a mobile phone or tablet charger.

Why is my Geek vape aegis solo not working?

Replace the battery if none of the above solutions work. If nothing happens when you attempt to use the Geek Vape Aegis Solo, it's likely that the battery is dead or that the device is locked. To unlock the device, press the fire button five times quickly. If the device still doesn't work, try charging the battery.

choosing the Aegis Solo 3 Discovery Pack, you can use your kit upon receipt. Armes et Liquides selected a pack with: an Aegis Solo 3 kit by Geek Vape, 2 VTC 6 18650 batteries by Sony, and an MC1 battery charger by Xtar.
