

Are solar batteries a good investment in Canberra?

In the era of renewables and clean energy consumption, the demand for solar batteries is greater than ever. In Canberra, many new properties come with fully integrated solar capabilities. Moreover, those who adopted solar panels in years gone by are considering batteries to lift system efficiency. But, with much to consider where does one start?

Why should you choose a solar energy storage system in Canberra?

Solar panels enable homeowners and businesses in Canberra to gain access to clean and green energy. With solar batteries, you can store any surplus electricity that your system generates for later use. A solar energy storage system offers many advantages including: The Tesla Powerwall gives you backup power when you need it most.

What types of solar batteries are available in Canberra?

Here in Canberra, the most common type found in residential settings is the lithium-ion solar battery. Other common types include lead-acid or advanced lead-acid batteries along with flow batteries. Be sure to consider your own solar system step up and research this aspect well.

Who are Canberra solar battery installers?

Our Canberra solar battery installers are fully accredited by Solar Accreditation Australia. We offer guaranteed workmanship on all our solar power projects for five years.

Why should you invest in solar panels in Canberra?

Increase your savings, reduce your carbon footprint, and achieve energy independence. Solar panels enable homeowners and businesses in Canberra to gain access to clean and green energy. With solar batteries, you can store any surplus electricity that your system generates for later use.

What is a solar rebate in Canberra?

This program helps Canberra's pensioners and veterans install energy efficient products in their home, such as solar PV systems, air conditioners and hot water heat pumps. Eligible homeowners can receive a \$2,500 rebate after a solar installation, as well as another \$2,500 rebate after a hot water heat pump or air conditioner installation.

Most Canberra homes are well served with a 5-15 kWh battery system, but rebates extend to larger systems. We install quality solar brands like Tesla Powerwall, BYD, LG, Sungrow, and ...
