

# Customized customized portable solar solution quotation for Switzerland project

How much does a solar panel cost in Switzerland?

For a standard villa with a panel surface area of 50 m<sup>2</sup> and a 10 kWh battery, the average price is around CHF 22,000, after deduction of subsidies and tax allowances. How long does it take to recoup your initial investment in a solar system? What are the advantages of a battery-powered solar system for my home in Switzerland?

Is Volta Swiss a good solar company?

Well done to the Volta Swiss teams. Serious and diligent company. The advice provided by the staff is very professional. "Always listening to the customer". A highly qualified team that always listens to the customer. I highly recommend Volta Swiss for your future solar installations. Opt for a cost-effective, long-lasting solar system.

What makes Candi a great solar company?

Combining the best of its roots in Switzerland, and extensive local presence, candi offers companies of all sizes the simplest, most efficient way to take advantage of solar power for their business.
