

What are Deka solar batteries?

Deka Solar batteries are valve-regulated, gel electrolyte or absorbed glass mat batteries designed to offer reliable power for frequent deep cycle solar power applications where minimum maintenance is required. Contact us toll-free: (877) 297-0014 for wholesale prices and complete systems using these batteries.

Why should you choose Deka solar batteries?

Deka Solar batteries are engineered and tested to provide reliable back-up power for Photovoltaic (PV) and renewable energy applications. Our steadfast commitment to quality and environmental standards has helped us achieve globally recognized certifications.

What is Deka powerforce?

Move more with Deka PowerForce, a unique and exclusive fully integrated charging system designed specifically for all Deka motive power batteries. Deka PowerForce is designed for optimal use with lead and lithium products. Even better, the charging system can recharge any lead battery technology, flooded, or sealed (Gel).

Are Deka solar gel & AGM batteries the same?

Both Deka Solar Gel & AGM batteries are built to the same rigorous standards. Contact us toll-free: (877) 297-0014 for wholesale prices and complete systems using these batteries. OEM, Distributor, System Integrator, Government, VAR, Dealer, Contractor, MWBE, International, and Reseller discounts available.

Is Deka powerforce a good charger?

The charger is equipped with world class smart technology, resulting in the Deka PowerForce being highly energy efficient at 95% and performs in all charging regimens, including fast, opportunity, and conventional. To make for easy user operation, programming, and reporting, the charger has an integrated color touchscreen interface.

How big is Deka powerforce?

At only 14 x 14 x 16 inches, Deka PowerForce packs a powerful punch in a small footprint. Mounting options include a wall mount bracket, stands, or pogo mounts for one or two units. Plus, an integrated breakaway connector improves safety and keeps the charger on the stand should an operator forget to disconnect a battery before driving away.

The Deka Battery Isolator - 120 Amp # DW08771 will allow you to hook up to a 12V ignition battery as well as two 6V golf cart batteries connected in series. This is a great choice as long as your alternator amperage rating is below 120 amps.
