

Garmin instinct 2 solar tactical battery life

How long does a Garmin Instinct 2 solar last?

The Instinct 2 Solar has pretty solid battery life, particularly considering the price point. Garmin state the following official stats: 28 days in smartwatch mode (65 days in battery saver mode, unlimited with solar); 30 hours in full GPS mode (48 hours with solar); and 70 hours in max battery GPS mode (370 hours with solar).

Should you buy a Garmin Instinct 2 solar?

If durability and battery life are your main concerns, we cannot recommend the Garmin Instinct 2 Solar enough. While lacking some of the more premium features found on the highest-end watches, we appreciate the simplicity of this design, both visually and internally. This watch is rugged and charges via the sun, so it can pretty much last forever.

How long does the Instinct 2 battery last?

With a claimed 30 hours in standard GPS mode, the Instinct 2 does not have the battery life of the high-end models that boast 100+ hours on a single charge while using GPS. Instead, the Instinct shines for those users not planning on epic GPS recording activities where conditions are variable.

Does Garmin Instinct 2 solar fit your wrist?

Consequently the Instinct 2 Solar fits the wrist comfortably (Garmin says it's suitable for wrist circumferences of 135-230mm) and remains slip-free during running, even at top speed. The Instinct 2 Solar has pretty solid battery life, particularly considering the price point.

How much does the Garmin Instinct 2 solar weigh?

We found that the Instinct 2 Solar frequently caught on backpack straps and was hard to fit under the cuffs of gloves and jackets. Finally, with a stated weight of 53 grams and a measured weight of 51 grams, the Instinct 2 Solar is about average in weight for its performance. The Garmin Instinct 2 Solar is a large yet still comfortable watch.

How long does Instinct 2 last in smartwatch mode?

From what I have seen though, the standard Instinct 2 gets 28 days in smartwatch mode. So why am I seeing just 23 days when fully charged with my solar? I have confirmed that pulse OX is on manual and the readings are with no GPS workouts. Additionally, I'm losing about 8% to 9% battery life per day.

Update: We've now published our Garmin Instinct Solar 2 review - head there for our full and in-depth testing. Garmin has unveiled the Instinct 2 and has brought infinite battery ...

The Instinct 2 Solar has pretty solid battery life, particularly considering the price point. Garmin state the following official stats: 28 days in smartwatch mode (65 days in battery saver mode, unlimited with solar); 30

Garmin instinct 2 solar tactical battery life

hours in full GPS mode ...

I think the Garmin Instinct Tactical is an unneeded and overpriced middle ground between the Garmin Instinct and the Garmin Instinct 2 Solar Tactical. As I stated above, the tactical features although cool are ...

I recently bought a garmin instinct 2 solar tactical, which claims to have 28 days of battery in the typical smart watch configuration and "unlimited" with the solar charging option.
