

Government subsidy for containerized pv system in Greece

Who gets subsidies for batteries?

According to the official program guide published in December, smaller businesses that install batteries will receive the largest subsidies, 50%. Medium-sized firms get 40% and large companies 30%. The beneficiaries are eligible for assistance with technical studies and connection to the grid.

How much a storage system is subsidized?

In both cases, only the storage system is subsidized. The size of the subsidy depends on the company submitting the application - the number of its employees and annual turnover. It is set at 30% of the system cost for large companies, 40% for medium-sized companies, and 50% for small companies.

What is the size of a company subsidy?

The size of the subsidy depends on the company submitting the application - the number of its employees and annual turnover. It is set at 30% of the system cost for large companies, 40% for medium-sized companies, and 50% for small companies. It will be allocated on a first-come, first-serve basis.
