

Government subsidy for customized portable solar solution in Chile

Is the boric government's subsidy plan a signal that Chile has changed?

Investors have expressed a broader concern that the Boric government's subsidy plan, intended to last three years, is a further signal that Chile, long known as an emerging market haven because of its stable, predictable rules, has changed for the worse.

Will a new solar Bill help the poor?

The US Chamber of Commerce and power investors raised the alarm after President Gabriel Boric's leftwing coalition unveiled a draft bill that would reduce revenues earned by smaller, mostly solar providers generating less than 9MW to help fund an electricity subsidy for poorer consumers.

Will new investment arbitration frameworks lead to more investment disputes in Chile?

New measures that affect investor rights could lead to more investment disputes involving Chile as the respondent state under investment arbitration frameworks that did not exist decades ago, but are now firmly established in Chile and the region.
