

## Government subsidy for customized portable solar solution in Norway

What are the new solar rebates in Norway?

Norway's clean energy agency Enova will increase the maximum PV system size eligible for rebates from 15 to 20 kW and the maximum subsidy amount from 1,250 to 2,000 NOK (\$226.7) per kW installed. In addition, new subsidies of up to 10,000 NOK will be introduced for energy management systems that are often installed alongside solar arrays.

Will Norway increase its subsidy for household electricity bills?

OSLO, Jan 10 (Reuters) - Norway's minority government plans to further increase its subsidy for household electricity bills amid a spike in winter season power prices, the energy ministry said.

How much solar power does Norway have in 2020?

In 2020, the newly installed PV capacity was around 31.7 MW and, in the previous year, new solar arrays totaled 51 MW. Norway had added 23.5 MW of solar in 2018; 18 MW a year earlier, and 11 MW in 2016. This content is protected by copyright and may not be reused.

How can I get more information about the NORAD guarantee scheme?

More information about the guarantee scheme will be published on an ongoing basis on [norad.no](http://norad.no). You can also get in touch via the e-mail address [guarantees@norad](mailto:guarantees@norad). Access to renewable energy is a vital step in eradicating poverty, reducing inequality and stopping climate change.
