

# Government subsidy for portable solar container in Germany

Does Germany offer subsidies for battery storage systems?

2013, the German government declared it would offer direct subsidies for battery storage systems. These subsidies would be 30% of the total system cost and connected to the latest distributed solar systems of less than 30KW. This policy was extended to 2018.

Does Germany offer subsidies for solar panels?

Germany is a world leader in the use of solar energy, and the government offers a number of subsidies and financial incentives to help homeowners and businesses install solar panels. These subsidies can help to offset the cost of installing solar panels, making them more affordable and accessible.

How much do solar subsidies cost?

These subsidies would be 30% of the total system cost and connected to the latest distributed solar systems of less than 30KW. This policy was extended to 2018. Currently, financial subsidies remain from local governments in accordance with federal government guidance.

Where can I get a solarplus subsidy in Berlin?

Applications for Berlin's SolarPlus program can be found online at Investitionsbank Berlin. Since February 2023, Berlin tenants can receive up to 500 euros in subsidies for balcony power plants as part of the SolarPlus program. These solar devices, which generate electricity on balconies, now have a subsidy limit of 800 watts, up from 600 watts.

What laws support solar energy in Germany?

The Renewable Energy Sources Act (EEG) is the main law that supports solar energy in Germany. It guarantees a fixed feed-in tariff for solar electricity, which means that solar power producers are paid a certain amount for each kilowatt-hour of electricity they generate.

Are photovoltaic home storage systems subsidized?

This year, photovoltaic home storage systems have been subsidized through a 34-million euro investment (more information here). In Baden-Württemberg, the "Grid Service Photovoltaic Battery Energy Storage" funding program, which was well-received in both 2018 and 2019, resumed on 1 April 2021 - however, all funding has already been allocated.
