

How do you use the Microtouch Solo unit?

To use the Microtouch Solo unit, hold it with the blade touching only one edge to the skin (Figure 7). Use light and gentle movements. The Microtouch Solo is designed for use on beards, including mustaches and goatees (Page 7).

How does the Microtouch solo razor work?

With its built-in precision trimmer, it allows for detailed trimming of facial hair and contours. The MicroTouch Solo razor is powered by a rechargeable battery, which provides sufficient power for extended use without the need for frequent recharging. This eliminates the inconvenience of constantly changing batteries or dealing with power cords.

How do I charge my razor Microtouch solo?

Charging your razor MicroTouch Solo is effortless. Connect the provided charging cable to the charging port located on the bottom of the device. Plug the other end of the cable into a power source, and the LED indicator will light up, indicating that the device is charging. How do I assemble the razor MicroTouch Solo?
