

Portable solar container off-grid project cost in Finland

How much does a solar generator cost?

According to Auvinen, prices for larger grid-connected solar generators of more than one megawatt fell below 1,000 euros per kilowatt. Rooftop arrays currently cost between 1,300 and 2,000 euros. Off-grid installations equipped with batteries cost between 3,500 euros and 5,000 euros per kilowatt.

Is solar irradiation a good idea in Finland?

The annual solar irradiation at least in southern Finland is comparable to Central Europe. The cold weather and the dust-free environment is an advantage, Auvinen points out. This is also confirmed by Matthi Lehtonen, operator an outdoor tracker array (6.2 kilowatts) on a farm in the Helsinki metropolitan area.

Do you get a tax subsidy if you invest in solar?

Companies and municipalities receive subsidies of 24 to 40 percent if they invest in photovoltaics. However, this subsidy does not apply to residential buildings and building societies. But the installation of solar systems on private homes is subject to tax advantages of up to 10 percent of the total investment.

In this blog, I will present the solar system and battery in place that make this possible, and what it cost me to build those. The cheapest energy is the one you don't have to generate, or in other words, conservation is cheaper ...

Total cost including shipping and taxes came to 683EUR -- that's very low, considering this thing weighs around 45kg due to a massive toroidal transformer and was shipped by courier service.

Off Grid Container This is the ultimate portable power station - a 20 foot container decked out with full off grid power equipment. Includes a large Victron Quattro 10kVA inverter, 10kWh lithium batteries and 4.95kW of Solar installed on the ...
