

Who is a solar power EPC contractor?

As a solar power EPC contractor, we take care of the design, purchase and construction of your solar power plant and battery storage system. We are particularly expert in plants with a 100-kilowatt system to megawatt system. Our expertise can help to Industrial clients, investment corporations and energy suppliers.

Why should you choose EPC solar?

EPC Solar aims to provide the highest quality, value for money renewable energy solutions for our clients. We provide engineering excellence along with the longest warranties available in the industry and all solutions are future-proofed with scheduled maintenance service offerings.

Does EPC solar offer a loan structure?

EPC Solar is mindful of the financial circumstances of many clients who wish to leverage solar power in the coming years. We offer a beneficial loan structure that will spread out the costs of investing in such a system. In most cases, this will provide a cash flow positive solution to the client from day 1.

Are portable solar generators efficient?

Efficiency and Output When it comes to portable solar generators, efficiency is a non-negotiable feature. The ability to convert solar energy into usable power directly impacts the performance of the generator. A high-efficiency rate often means less solar input is needed to generate a given amount of power.
