Who is Perth solar warehouse?

Perth Solar Warehouse is your locally proven home battery provider with a modern twist. Perth's best solar battery deals. Here's quick access to our latest catalogue >

How do solar panels work in Perth?

Our 22+ years experience in Perth proves this. Solar powers your home by converting sunlight into electricity using solar panels. These panels are composed of photovoltaic (PV) cells that take in sunlight and generate an electrical current. When sunlight hits the PV cells, it excites electrons, creating a stream of electricity.

Why should you choose solar panels in Perth?

With the ever-increasing number of solar systems in Perth, we're at the forefront, delivering top-tier systems comprised of the best panels and inverters available. Understanding the rising electricity prices, we focus on providing panels for your home that significantly reduce your power bills.

How much does a home battery cost in Perth?

Here are Perth's leading brand options. Ranging from \$300 to \$800 per kWh average after the available rebates, home batteries are a viable electricity bill relief solution. Added features, such as blackout protection options, are a bonus. Perth Solar Warehouse is your locally proven home battery provider with a modern twist.
