Are all AAAA batteries the same?

It is important to keep in mind that not all AAAA batteries are created equal and that all retailers have the same dedication to quality. To avoid low quality or worse counterfeit batteries it is important to only purchase your batteries from a highly reputable retailer that sells only the highest quality of brands.

Who makes AAAA batteries?

The AAAA Battery is a fairly common battery and is produced by many large brands such as Duracell, Atomic, Energizer, and more. The AAAA battery is also widely produced by smaller companies and private label battery manufacturers. Other companies also produce batteries in a similar size to the AAAA, but of different designations and capacities.

Why do you need AAA batteries?

Having AAA batteries on hand ensures that you can keep frequently used devices powered. Use them in remote controls, wireless mice, alarm clocks, children's toys and so much more. Stock up on AAA lithium batteries and alkaline batteries so that you don't run out.
